

HANELLY™

ORGANIZATIONAL VISUALIZATION

Go Beyond the Org Chart

HANELLY™

Average Org Chart tools provide you with a mere snapshot of your company's structure. HANELLY™ Organizational Visualization is designed to help drive employee engagement, increase productivity, and foster collaboration, recognition and peer-to-peer networking functionalities.

As your company grows, plan ahead by leveraging HANELLY™'s suite of solutions to accelerate organizational transformation and M&A processes in order to save costs and increase ROI.

"Org charts provide a quick & interactive organizational context to any given stakeholder"¹

SEE WHAT'S POSSIBLE

- **VIEW** the state of your organization with up to date, real-time, data including ratios and metrics that are fully integrated with your HCM core solution.
- **FOSTER** collaboration with an integrated intuitive platform that replaces manual processes and tools.
- **VISUALIZE** OrgChart analytics such as, span of control, headcount, layers in the organization, and many other metrics in order to understand the current reality of your organization.
- **ENABLE** stakeholders to visualize and compare data in order to measure the impact of any organizational changes in real-time.
- **ENGAGE** your employees by allowing them to recognize people, network with their peers, share their skills and education, and view of where they fit in the organization.
